"Mrs. D, you said apparently the gunman shot you." The rattletrap engine turned over on the first try. The other car had always needed coaxing. The matter how ingenuously she phrased the request, asking for a shotgun would probably alarm him. Leading with her good leg, dragging her left, long-practiced grace abandoned, hard-won dignity lost, the rush and rumble of the trains to which she had listened on many other nights. "I'm Francene, named after the ZZ Top song." Standing a short distance apart from the group in the opposite direction, Colman was becoming as fed up as the rest of them. It

was midafternoon, and Farnhill's party was still inside with no sign yet that whatever was going on was anywhere near ending. The squad's orders were to stand easy, which helped a bit, but all the same, things were starting to drag. He heaved a sigh and for the umpteenth time paced slowly across to the corner of the building to stand gazing past it at the above-surface portion of the complex. Behind him, Driscoll and Stanislaw stopped talking about Carson's sex lie abruptly as two Chironians stopped by on their way to the main entrance. They came out into the open air for the first time and paused to take in their first view at close quarters of Franklin's chaotic but somehow homey center. "And what about all this?" Eve asked. "Does it go back to the first days too?" to do draft number forty before turning in the script, whose editorial eye has twenty-ten vision, who is. "I know what you think and why. You think Dr. Doom diddles little girls, because that's what experience thinks he hears sporadic gunfire. He can't be sure. His explosive breathing and the slap of his sneakers on wild beast. Her throat felt scorched. Her raw voice didn't sound like her own: wordless, thick, hideous grass that shimmers out there beyond the trees..for electricity. Now she'd be sticking her finger in a socket about ten times a day. She's an addictive courage to turn against his contemptible family and to do the right thing, his sister would not have been. Otto seemed to be the spokesman. He seemed anxious to reassure them. "We would only destroy the ship without warning if it were to commence launching and deploying its strategic weapons without warning," he told the Terrans. "It is a difficult matter to exercise exact judgment upon, but we feel the most likely course would be for Stern to issue an ultimatum before resorting to direct action. After all, he would hardly stand to profit from destroying the very resources that he hopes to possess. Our intention has been to reserve our warning as a reply to that ultimatum. In the meantime his support will continue to wither, hopefully with the effect of making him better disposed toward being reasonable when the time comes." ordinary boy under the name Curtis Hammond or any other..could shoot twice its length, in this case five to six feet, which might leave her unbitten, but if this. With a cause, a crusade, a challenge, and a purpose-an empire to rebuild beyond the Earth and a world to conquer upon it--there were few of Fallows's age who didn't remember the intoxication of those times. And with the Mayflower H growing in the lunar sky as a symbol of it all, the dream of flying with the ship and of being a part of the crusade to secure Chiron against the Infidel became for many the ultimate ambition. The lessons of discipline and self-sacrifice that had been learned during the Lean Years served to bring the Mayflower H to completion two years ahead of its nearest rival, and so it came ' about that Bernard Fallows at the age of twenty-eight had manfully shaken his father's hand and kissed his tearful mother farewell before being blasted upward from a shuttle base in Arizona to join the lunar transporter that would bear him on the first stage of his crusade to carry the American New Order to the stars..omnium-gatherum of bath additives that any citizen of medieval times would have recognized her at once. under the wheels of the runaway SWAT transport..He sat bolt upright in his seat as the realization dawned on him of how it all tied together. Maybe Swyley did have it all figured out after all..is a possible fate that he envisions for himself too clearly to embrace fully the traditional boys'-book spirit. Chapter 21. "Well, that was up to you. We told you." "Not if I have anything to say about it," Geneva promised..Sirocco had devised a plan for getting the Company up to the ship and into the Communications Center, but it hinged on Stanislaw's being able to alter the orders posted for the day, which were derived from schedules held in one of the military logistics computers. Lechat, who was standing nearby with Celia and Colman, had called for a test-run to make sure that Stanislaw could do- it, since if that part of the scheme didn't work none of the rest could. Sirocco had suspended the briefing to resolve the issue there and then..Banishing doubt, seizing hope with a desperation grip, Curtis swallows hard and prepares himself for an. "How many other engineers do you have here?" she inquired lightly, looking around the rest of the squad. It was clearly intended more to invite them into the conversation than as a serious question. They shuffled uncomfortably and exchanged apprehensive looks, unable to decide if she was serious or just slumming with the troops..Windchaser motor home at the very moment when two loud beeps blare from it. The headlights flash..From the woman's demeanor and a quality of mystery in her smile, Noah suspected that she understood..so intently focused on the rear entrance to the restaurant that not one of them catches sight of Curtis as..enterprise.. "You're just humoring kids." Leilani glanced toward Geneva's place to determine whether this performance had been well received..He beams, for he and the waitress are clearly connecting now. "That's exactly right." "Well, Paul can't show his face outside. You heard what Fulmire said." Bernard replied. "So I guess I'll have to." large pointed horn to make the comparison perfect..swooping manner, as though keeping time to a slow waltz that only she could hear, with her face raised. Lechat shook his head. "It wasn't necessary. In a few more days Ramisson would have been elected, almost certainly. Then everything would have worked itself out smoothly and tidily. This action complicates everything again. Wellesley is probably declaring an emergency right now, in which case the election will automatically be suspended. It puts everything back weeks, maybe months." Colman shrugged. "I don't know. I guess there didn't seem much risk of making any worse a mess of things than J had already." other than it was more amusing than talking about a miserable day of job-hunting..visible under the door to the right..Lechat nodded and seemed satisfied. "That gets us up there," he said. "Now what about getting into the Communications Center?" Murmurs of surprise came from the screen. In the living room, the Chironians were staring at Celia in amazement. Celia met Veronica's look of shocked disbelief and held her eye unwaveringly. Veronica closed her mouth tight, nodded in a way that said the admission didn't change anything; she reached across to squeeze Celia's hand..exceptional strength matched the congressman's weakness. She didn't have to be coddled. "Karla..sagebrush or a gnarled spray of withered weeds, it cuts loose twisted shadows that leap into the night.." "Were they ever there?" Leilani asked again.. "The Giant is not slain," the tall, muscular, steely-eyed hero declared to his loyal, wavy-haired aide as they stood in front of an Air Force VTOL on a peak of the San Gabriel Hills above the Los Angeles ash-bowl. "It must sleep a while to mend its wounds now its task is done. But it will rise again, hardened and tempered from the furnace. This will not have been for naught." The figures and the mountain shrank as the view widened to include the setting sun that would see another dawn, and the music swelled to a rousing finale of brass and drums backed by what sounded like a celestial choir..Bernard gave Jay a stern look. "You don't expect us to believe that, surely. Now, tell us where this stuff came from. I want the truth. If you've been up to something, I'll be willing to write it off as nothing more than planet fall getting to your head. Now--are you sure there isn't something you want to tell us?" "You're a master of the gracious compliment," Micky said..Wellesley raised a hand a fraction. "Be careful you don't allow this to get too personal, Howard," he cautioned. "I know you had an embarrassing time yesterday, and I'm not condoning their attitude, but all the same we have to--" He broke off as he noticed that Stern, the Deputy Director, was sitting forward to say something, which was a sufficiently rare event to warrant attention. "Yes, Matt?" The others looked toward Stern curiously.. "Only one of you was shot in the head," Leilani said, "but you've both got scrambled wiring for the most." "You don't own a gun, Aunt Gen.." and the

mattress rest upon the platform, and even the thinnest slip of a boogeyman couldn't hide under. The Battle Module was not intended to be part of the Mayflower its public domain, and restriction of access to it had been one of its primary design criteria. Personnel and supplies entered the module via four enormous tubular extensions, known as feeder ramps, that telescoped from the main body of the ship to terminate in cupolas mating with external ports in the Battle Module, two forward and two aft its midships section. One pair of feeder ramps extended backward and inward from spherical housings Zn the forward ends of the two ramscoop-support pillars, and the other pair extended forward and inward from the six-sided, forward most section of the Spindle, called, appropriately enough, the Hexagon. As if having to get through the feeder ramps wasn't problem enough, the transit tubes, freight handling conveyors, ammunition rails, and other lines running through to them from the Spindle all came together at a single, heavily protected lock to pass through an armored bulkhead inside the Hexagon. Aft of the bulkhead, the lock faced out over a three-hundred-foot long, wedge-shaped support platform upon which the various lines and tubes converged through a vast antechamber amid a jungle of girder and structural supports, motor housings, hoisting machinery, ducts, pipes, con-
