"I told them," he said, "that if they went out Medra's Gate this day, they'd never go back through. As the dim light that came into the room from chinks in the mortar of the bricked-up window died, emphasis on the last word, and inwardly murmured, "Avert." "My own, sir. It is Irian." "I'll see you then," said Diamond, looking big and handsome and indifferent, and walked off... along the oaken banister-rail. "Can you do that coming down?" Golden asked, and Diamond said, but purposeful, down one of the tracks, and he went with her, a hand on her hip when the way was. In the lore-book from Way, which he brought with him in a spell-sealed box whenever he traveled, were passages concerning the true refiner's fire. Having long studied these, Gelluk knew that once he had enough of the pure metal, the next stage was to refine it yet further into the Body of the Moon. He had understood the disguised language of the book to mean that in order to purify pure quicksilver, the fire must be built not of mere wood but of human corpses. Rereading and pondering the words this night in his room in the barracks, he discerned another possible meaning in them. There was always another meaning in the words of this lore. Perhaps the book was saying that there must be sacrifice not only of base flesh but also of inferior spirit. The great fire in the tower should burn not dead bodies but living ones. Living and conscious. Purity from foulness: bliss from pain. It was all part of the great principle, perfectly clear once seen. He was sure he was right, had at last understood the technique. But he must not hurry, he must be patient, must make certain. He turned to another passage and compared the two, and brooded over the book late into the night. Once for a moment something drew his mind away, some invasion of the outskirts of his awareness; the boy was trying some trick or other. Gelluk spoke a single word impatiently, and returned to the marvels of the Allking's realm. He never noticed that his prisoner's dreams had escaped him. And there are songs, old lays and ballads from small islands and from the quiet uplands of Havnor, history and magic of the place. "Woven cloth we're looking for, and the undyed thread, and other things too-- buttons we're short. Men and women of the Hand had joined together on Roke a hundred or more years ago, forming a league of mages. Proud and secure in their powers, they had sought to teach others to band together in secret against the war makers and slave takers until they could rise openly against them. Women had always been leaders in the league, said Ember, and women, in the guise of salve sellers and net makers and such, had gone from Roke to other lands around the Inmost Sea, weaving a wide, fine net of resistance. Even now there were strands and knots of that net left. Medra had come on one of those traces first in Anieb's village, and had followed them since. But they had not led him here. Since the raid, Roke Island had isolated itself wholly, sealed itself inside powerful spells of protection woven and rewoven by the wise women of the island, and had no commerce with any other people. "We can't save them," Ember said. "We couldn't save ourselves." looks like nothing at all from outside, as you come to it in a dingy street; or you can go in the right time (usually early adolescence) and in the right place (a spring, pool, or running stream). word haath, "dragon," in the Old Speech.) The four Kargad islands are mostly arid in climate but fertile when watered and cultivated. The Kargs have maintained a society that appears to be little influenced, except negatively, by their far more numerous neighbors to the south and west... on thinking the ordinary thoughts of life, while the rest of it made preparations for terror and what had become of their power. They didn't know. "All the foreigners in one basket," said the taverner, and this was repeated that night at the tavern several dozen times, an inexhaustible source of admiration, the best thing anybody'd said since the murrain. How long can you stay? quietly to him and let him go. Irioth drew a deep breath. "Come" she said, "before you fall asleep there," and he followed her obediently to Berry's room, which wasn't much more than a cupboard built onto the corner of the house. Her room was behind the chimney. Berry would come in, drunk, in a while, and she'd put down the pallet in the chimney corner for him. Let the traveler have a good bed for a night. Maybe he'd leave a copper or two with her when he went on. There was a terrible shortage of coppers in her household these days. "Death and desolation," said the ship's master, a short man with small, sad, knowing eyes like a. that he could come among them in a herd, instead of going to them one by one as they scattered out. "Study with the wizard?" If Diamond had been born to that kind of power, if that was his gift, then all Golden's dreams and plans of training him in the business, and having him help in expanding the carting route to a regular trade with South Port, and buying up the chestnut forests above Reche -- all such plans dwindled into trifles. Might Diamond go (as his mother's uncle had gone) to the School of Wizards on Roke Island? Might he (as that uncle had done) gain glory for his family and dominion over lord and commoner, becoming a Mage in the Court of the Lords Regent in the Great Port of Havnor? Golden all but floated up the stairs himself, borne on such visions. The wizard kept the name Roke in his memory, and when he heard it again, and in the same connection, he knew Hound had been on a true track again. He had not known how tired he was until he came to haven. He spent all that day drowsing before and saw his love so clear, so close, that he reached out his hand to touch her. If he reached out. Hound was down at the door, they said. Early sent for him to come up. "Who's Tern?" he asked as. What he found on Roke was both less and more than the hope and rumor he had sought so long. Roke
